**C**                                  **F**      **C**                                  **G**  
 What n Friend we have in Jesus, all our sins and griefs to bear

**C**                                  **F**      **C**      **G**                                  **C**  
 What a priviledge to carry, everthing to God in prayer

**G**                                  **C**      **F**      **C**                                  **G**  
 Oh, what peace we often forfeit, Oh what needless pain we bare

**C**                                  **F**      **C**      **G**                                  **C**  
 All because we do not carry, everything to God in prayer

**C**                                  **F**      **C**                                  **G**  
 Have we trials and temptations, is there trouble anywhere

**C**                                  **F**      **C**      **G**                                  **C**  
 We should never be discouraged, take it to the Lord in prayer

**G**                                  **C**      **F**      **C**                                  **G**  
 Can we find a friend so faithful, who will all our sorows share

**C**                                  **F**      **C**      **G**                                  **C**  
 Jesus knows our every weakness, take it to the Lord in prayer

**C**                                  **F**      **C**                                  **G**  
 Are we weak and heavy-laden, cumbered with a load of care

**C**                                  **F**      **C**      **G**                                  **C**  
 Precious Saviour, still our refuge, take it to the Lord in prayer

**G**                                  **C**      **F**      **C**                                  **G**  
 Do thy friends despite, forsake thee, take it to the Lord in prayer

**C**                                  **F**      **C**      **G**                                  **C**  
 In His arms He'll take and shield thee, thou wilt find a solace there
